

Lab 5 – Create the Layout

Description:

Using the CSS layout techniques that we have looked at so far, try to recreate one of the layout options that are found below.

Instructions:

Please follow these instructions carefully:

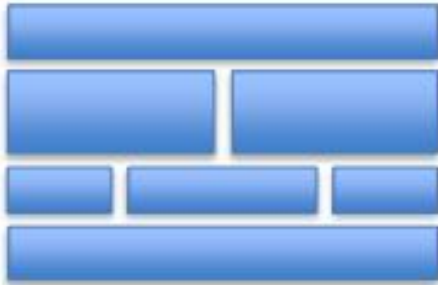

1. Download the zipped folder.
2. Select a layout option from below. Using CSS in a separate CSS file, recreate the layout.
3. Extract the layout folder that is named after the layout that you have chosen. Please note that the HTML elements besides the ones that have been mentioned above should not be edited.
4. Upload to the webserver and submit the URL along with a zipped folder containing your work to Blackboard.

Layout Options:

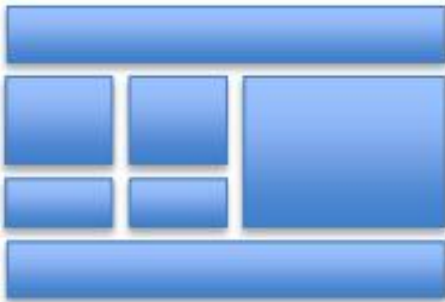

- a. Option 1

b. Option 2

c. Option 3

d. Option 4
